

## Accomplishments

### Climate Action

DELIVERING THE MOST

# Aggressive Climate Action

*in* AMERICAN HISTORY

- ☑ America is now positioned to achieve its climate goals of cutting our emissions in half by 2030 and net-zero by 2050
- ☑ More than a hundred executive actions to develop clean energy, lower costs, create jobs, and reduce pollution

- ☑ Investing in clean and equitable solutions in disadvantaged communities
- ☑ Protected more lands and waters in the President's first year than any President since John F. Kennedy
